OM 2200 Series

NetOps Console Server

Opengear OM appliances are NetOps Console Servers – Network Management appliances that combine the capabilities of a *Smart OOB™* Console Server with the flexibility of NetOps Automation.

The OM2200 NetOps Console Server, managed through our Lighthouse software, is configured for data centers and high-density locations. As part of Opengear's Network Resilience Platform, it provides a separate, secure management plane that supports advanced automation applications.

<https://opengear.com/products/om2200-operations-manager/>

- 16, 32 and 48 Serial port NetOps console server
- Mixed port models available: 24 ports serial + 24 ports Ethernet
- Eight USB 2.0 and two USB 3.0 ports
- x86 platform supporting Python, Docker, and Network Automation
- 8GB memory / 64GB SSD storage
- TPM 2.0 embedded physical security
- RS-232 Software Selectable serial ports with automated port discovery
- Managed networking with VLAN and Routing support
- NetOps Automation with Smart Out-Of-Band
- Dimensions: 1RU 17.25 x 10.25 x 1.75 inches – 7.7 pounds
- Operating Temperature: 5°C to 50°C / 41°F to 122°F
- Warranty: Four-year warranty standard, optional 5th and 6th year

- **Global Cellular Frequency:**
 - 4G LTE B1, B2, B3, B4, B5, B7, B8, B9, B12, B13, B18, B19, B20, B26, B28, B29, B30, B32, B41, B42, B43, B46, B48, B66
 - 3G B1, B2, B4, B5, B6, B8, B9, B19
- Power cables shipped are based on -US, -EU, -UK, -JP, or -AU suffix of the PN. Additional details are in the ["Power Cables"](#) section of this catalog
- DDC units do not ship with power cables therefore, there are no -EU, -UK, -US, -JP, or -AU for -DDC part numbers

Included with OM2200 unit

Part Number	Quantity	Description
OM22xx	1	OM22xx Unit
4400xx	2	Power cable - IEC C13, 1.8m, black
440016	1	Cat5 Straight Cable 6'
319015	1	Straight (X2) pinout RJ45 to DB9F crossover serial adapter
590037	1	Rack Mount Kit – (Ears and Screws)
520109	1	Quick Start Postcard
Also included with cellular -L units		
Part Number	Quantity	Description
569042	2	Antennas Blade 3W 50Ohms Vert 617-6000MHz
449041	1	Antenna Base – 10' w/ Magnetic Base – SMA Connector

- Optional accessory [compatibility table](#) is listed near the end of this catalog

OM1200 Series

NetOps Console Server

The compact OM1200 appliance is designed specifically for secure edge deployments, used in combination with Lighthouse Management Software. Combining the secure access of *Smart OOB™* with the flexibility of NetOps automation tools, it provides the Presence & Proximity at every location that supports emerging requirements in Network Management and Automation.

<https://opengear.com/products/om1200-operations-manager/>

- 4 or 8 Serial port NetOps console server
- Mixed port models available: 4 or 8 ports serial + 4 or 8 ports Ethernet
- Four USB ports (Two USB 3.0 and two USB 2.0)
- x86 platform supporting Python, Docker, and Network Automation
- 2GB or 4GB memory / 16GB SSD storage
- TPM 2.0 embedded physical security
- RS-232 Cisco Straight (X2) Pinout Serial Ports
- Managed networking with VLAN and Routing support
- NetOps Automation with Smart Out-Of-Band
- Dimensions: 1RU half width – 220 x 184 x 44.5 mm - 1.4 Kg
- Operating Temperature: 5°C to 50°C / 41°F to 122°F
- Warranty: Four-year warranty standard, [optional 5th and 6th year](#)

	Device Ports		Host Ports				
Part Number	Serial Ports	1GbE Switch Ports	1GbE Ports	Memory	Power Inputs	Global Cellular 4G LTE-A Pro	Price USD
OM1204	4	-	2x RJ45	2GB	1	-	\$1,382.00
OM1204-L	4	-	2x RJ45	2GB	1	Yes	\$2,040.00
OM1204-4E	4	4	2x (RJ45 SFP)	4GB	1	-	\$1,853.00
OM1204-4E-L	4	4	2x (RJ45 SFP)	4GB	1	Yes	\$2,489.00
OM1208	8	-	2x RJ45	2GB	1	-	\$1,685.00
OM1208-L	8	-	2x RJ45	2GB	1	Yes	\$2,489.00
OM1208-8E	8	8	2x (RJ45 SFP)	4GB	2	-	\$2,576.00
OM1208-8E-L	8	8	2x (RJ45 SFP)	4GB	2	Yes	\$3,389.00

- **Global Cellular Frequency:**
 - 4G LTE B1, B2, B3, B4, B5, B7, B8, B9, B12, B13, B18, B19, B20, B26, B28, B29, B30, B32, B41, B42, B43, B46, B48, B66
 - 3G B1, B2, B4, B5, B6, B8, B9, B19
- OM1200 part numbers with 2 power inputs ship with a single universal AC power supply. A second power supply can be ordered separately using part numbers listed in the optional accessory compatibility table.

Included with unit		
Part Number	Quantity	Description
OM12xx	1	OM12xx Unit
450038	1	Universal AC Power Supply
440016	1	Cat5 Straight Cable 6'
319015	1	Straight (X2) pinout RJ45 to DB9F straight serial adapter
590054	1	External rack mount ear with hardware
370003	4	Rubber Feet
520109	1	Quick Start Postcard
Also included with cellular (-L) units		
Part Number	Quantity	Description
569042	2	Antennas Blade 3W 50Ohms Vert 617-6000MHz
449041	1	Antenna Base – 10' w/ Magnetic Base – SMA Connector

- Optional accessory [compatibility table](#) is listed near the end of this catalog

CM8100 Series

Console Manager

Building on 18 years of Opendgear product innovation and leadership, the CM8100 is Opendgear's newest console manager for data centers and enterprise networks. The CM8100 offers 16-48 serial console ports with simple straight-through cabling to Cisco®-style serial consoles.

Each unit has dual GbE ethernet connections, and interfaces with the Lighthouse Centralized Management platform.

<https://opengear.com/products/cm8100-console-server/>

- 16, 32, and 48 serial port Console Manager supporting NetOps environments
- *Smart* Out-Of-Band
- Price optimized for performance and reliability
- Dual core processor with 2GB memory for Python scripts and containers
- API based firmware enabling automation tools
- TPM 2.0 embedded physical security
- RS-232 Cisco Straight (X2) Pinout Serial Ports
- VLAN and dynamic routing supported on Ethernet ports
- Dual AC power supplies
- Dimensions: 1RU 440 x 235 x 44 mm – 4.5 kg
- Operating Temperature: 5°C to 50°C / 41°F to 122°F
- Warranty: Four-year warranty standard, [optional 5th and 6th year](#)

Part Number	Power	RS-232 Serial	Memory	Storage	Ethernet 1GbE	Price USD
CM8116-US/EU/UK/JP/AU	Dual A/C	16	2GB	32GB	2x RJ45	\$2,857.00
CM8132-US/EU/UK/JP/AU	Dual A/C	32	2GB	32GB	2x RJ45	\$3,692.00
CM8148-US/EU/UK/JP/AU	Dual A/C	48	2GB	32GB	2x RJ45	\$4,614.00

- Power cables shipped are based on -US, -EU, -UK, -JP, or -AU suffix of the PN. Additional details are in the [“Power Cables”](#) section of this catalog

Included with unit		
Part Number	Quantity	Description
CM81xx	1	CM81xx Unit
4400xx	2	Power cable - IEC C13, 1.8m, black
440016	1	Cat5 Straight Cable 6'
319018	1	Cisco rolled pinout RJ45 to DB9F crossover serial adapter
590037	1	Rack Mount Kit – (Ears and Screws)
	1	Lighthouse info postcard
	1	Quick Start postcard

- Optional accessory [compatibility table](#) is listed near the end of this catalog

IM7200 Series

Infrastructure Manager

In data centers and large IT deployments, the Infrastructure Manager allows network operations staff to securely access critical network devices from the control room or Network Operations Center (NOC).

Smart Out-of-Band, provides a physical connection to your network devices, managed via a secure remote link. Reduce your reliance on third-party remote hands for configuration, power cycling and many standard processes. And with Lighthouse management software, the Out-of-band network can be orchestrated through a centralized portal. <https://opengear.com/products/im7200-infrastructure-manager/>

- 8, 16, 32 and 48 Serial port Smart Out-Of-Band console server
- Mixed port models available: 24 Ports Ethernet or 24 Ports USB Console
- v.92 Analog modem
- RESTful API, programmable and extensible
- 2GB memory / 16GB storage
- FIPS 140-2 compliant OpenSSL cryptographic module
- RS-232 Software Selectable serial ports
- Environmental monitoring available
- Dual A/C or Dual D/C Power Supplies
- Dimensions: 1RU 440 x 255 x 43 mm - 3.4 Kg
- Operating Temperature: 5°C to 50°C / 41°F to 122°F
- Warranty: Four-year warranty standard, [optional 5th and 6th year](#)

Included with unit		
Part Number	Quantity	Description
IM72xx	1	IM72xx Unit
4400xx	2	Power cable - IEC C13, 1.8m, black
440016	1	Cat5 Straight Cable 6'
319015	1	Straight (X2) pinout RJ45 to DB9F crossover serial adapter
590001	1	Rack Mount Kit – (Ears and Screws)
520062	1	IM7200 Quick Start Guide
Also included with cellular -Lxx units		
Part Number	Quantity	Description
569028	2	Antenna – 4G LTE Blade 5"
449041	1	Antenna Base – 10' w/ Magnetic Base – SMA Connector

- Optional accessory [compatibility table](#) is listed near the end of this catalog

CM7100 Series

Console Manager

A standard console server for data centers and large compute locations, the CM7100 offers 16-96 serial console ports with simple straight-through cabling to Cisco®-style serial consoles.

Each unit has dual GbE ethernet connections, and interfaces with the Lighthouse Centralized Management platform. Cellular access is not available on the CM7100 unit. For high-density applications such as hyperscale locations, the CM7196 model offers 96 console ports in a 1U configuration.

<https://opengear.com/products/cm7100-console-server/>

- 16, 32, 48 and 96 Serial port Smart Out-Of-Band console server
- High density with up to 96 Ports in 1 RU form factor
- Cost effective and best value per port for console management
- RESTful API, programmable and extensible
- 256MB memory / 4GB storage (2GB memory / 64GB storage in CM7196A)
- FIPS 140-2 compliant OpenSSL cryptographic module
- RS-232 Cisco Straight (X2) Pinout Serial Ports
- Environmental monitoring available
- Single or Dual AC power supplies
- Dimensions: 1RU 440 x 185 x 43 mm - 2.6 Kg
- Operating Temperature: 5°C to 50°C / 41°F to 122°F
- Warranty: Four-year warranty standard, [optional 5th and 6th year](#)

Part Number	Quantity	Description
CM71xx	1	CM71xx Unit
4400xx	2	Power cable - IEC C13, 1.8m, black
440016	1	Cat5 Straight Cable 6'
319015	1	Straight (X2) pinout RJ45 to DB9F crossover serial adapter
590001	1	Rack Mount Kit – (Ears and Screws)
370003	4	Rubber Feet
520109	1	Quick Start Postcard

- Optional accessory [compatibility table](#) is listed near the end of this catalog

ACM7000 Series

Resilience Gateway

For small IT deployments at edge locations, the Resilience Gateway provides secure remote access to your critical devices via *Smart* Out-of-Band management. An embedded, global 4G-LTE cellular modem offers an alternate path when the primary link is unavailable.

Connect devices directly to this small form-factor console server with 4 or 8 serial and 4 USB ports, providing always-on access to your remote networking equipment. Every model includes 4GB internal storage. Options include a 4-port GbE switch and models without the cellular modem.

<https://opengear.com/products/acm7000-resilience-gateway>

- 4 or 8 Serial port Smart Out-Of-Band console server
- Mixed port model available 4 ports serial + 4 ports Ethernet
- Four USB 2.0 ports
- RESTful API, programmable and extensible
- 256MB memory / 4GB storage
- FIPS 140-2 compliant OpenSSL cryptographic module

- RS-232 Cisco Straight (X2) Pinout Serial Ports
- Environmental monitoring available
- Compact appliance, ships with universal AC power adapter
- Dimensions: Compact 130 x 120 x 36 mm - 0.7 Kg
- Operating Temperature: -25°C to 60°C / -13°F to 140°F
- Warranty: Four-year warranty standard, [optional 5th and 6th year](#)

Part Number	Serial	Ethernet 10/100/1000	Fiber 1G SFP	Dial-up Modem	Price USD

Included with unit		
Part Number	Quantity	Description
ACM700x	1	ACM700x Unit
450037	1	Power Supply 12VDC Four Chamber Square Connector
319015	1	Straight (X2) pinout RJ45 to DB9F crossover serial adapter
590003	1	Rack Mount Kit (One ear and screws)
319115	1	Terminal block, 8-pin for Environmental sensors
370003	4	Rubber Feet
520109	1	Quick Start Postcard

Also included with cellular -L / -LMP units		
Part Number	Quantity	Description
569042	2	Antennas Blade 3W 50Ohms Vert 617-6000MHz
569028	2	Antenna – 4G LTE Blade (for -LMP Devices)
590051	1	Cellular Extension Kit

- Optional accessory [compatibility table](#) is listed near the end of this catalog

-CN models do not include power cables. Use part number 440053 to order optional China power cables

Lighthouse Management Software

Lighthouse software manages all of your network devices via connected console servers at each location. As an API-driven platform with an HTML5 interface, it provides secure access to remote networks regardless of how they are connected or how a user interacts with the system. In combination with NetOps Console Servers, Lighthouse can push and manage Docker containers to each remote location to provide additional functionality and automation.

When deployed across a distributed enterprise of data centers and edge locations, Lighthouse is the control center of a comprehensive Network Resilience Platform, independent of the production network.

Part Number	Description – Enterprise	USD
ENTLH-STARTUP-1Y	Lighthouse Enterprise Startup, 1 Year Subscription, for up to 10 nodes	\$1,000.00

AE-ENTLH-MAX-3Y	Lighthouse Enterprise Automation Edition Max, 3 Year Subscription, unlimited nodes	\$280,000.00

Automation Edition adds Secure Provisioning and Automation Gateway features to Lighthouse Enterprise

Secure Provisioning:

Remotely provision new network devices via a connected Opengear console server. Allowing you to not only bootstrap an entire network, but also do in-line replacement of failed equipment, all without an on-site engineer.

Automation Gateway:

Provides users and automation code the ability to discover and manage IP-based management interfaces via the Opengear management system, with the same level of simplicity and efficiency as if they were serial consoles. Delivering client free access from your web browser to your remote device management interfaces.

Visit the Opengear Lighthouse product page for more details <https://opengear.com/products/lighthouse/>

Environmental Monitoring

The Opendgear EMD5000 environmental monitoring device plugs into the serial ports on our console servers and enables you to remotely monitor environmental conditions using a standard Web browser.

Not available on the OM Series appliances.

- Comes with Temperature and Humidity
- Measures temperatures between 0 and 80°C with an accuracy of +/-1° C
- Measures relative humidity between 10 and 90% RH with an accuracy of +/-5%
- Dimensions: 2.26 x 1.48 x 1.15 in - 2 ounces
- Connects up to two dry contact sensors (see below)
- One year warranty

Part Number	Pinout	Compatible Models	Price USD
EMD5000-01	-X1 (Cyclades)	All IM7200 Series	\$324.00
EMD5000-02	-X2 (Cisco)	All ACM7000 Models All CM7100 Models * The EMD5000-02 unit has internal temperature / humidity but can only have one external dry contact (not two)	\$324.00
EMD5890-QA		Smoke Detector / Alarm 110V AC	\$211.00
EMD5780		Water Leak Detector – 3' Cable length	\$222.00
EMD5781-10		Door Contact Sensor – 10' Cable length	\$19.00
EMD5782		Vibration Sensor – 3' Cable length	\$68.00
EMD5779-QA		Smoke Detector / Alarm 220V AC	\$211.00

Certified Cellular Accessories

Part Number	Photo	Description	Price USD
569008		GPS Antenna – Passive – 3dB, SMA Male Connector, 6' Cable length	\$55.00
449041		Antenna Base – 10' w/ Magnetic Base – SMA Connectors – (Antenna not included)	\$33.00
569028		Antenna – 4G LTE Blade - 6.25" (Standard on IM7200 -LMx and ACM7000 -LMP models)	\$32.00
569042		Antennas Blade 3W 500hms Vert 617-6000MHz	\$32.00

SIM slots for all cellular models is the same. SIM card dimensions are: .98 in x .59 in (25mm x 15mm) – Mini 2FF

Extended Warranty

Opengear products ship with 4-year warranty standard on all models. Most console servers are deployed for 5 – 7 years and Opengear recommends purchasing extended warranty to cover the installed life of the product.

Opengear offers warranty extensions for 5th and 6th year coverage. Both 5th and 6th year part numbers must be purchased for 6 years of coverage. Extended warranty must be purchased before expiration of active warranty period.

Part Number	Description	Price USD
